SKILLS
- **Languages & Frameworks:** Javascript, HTML, CSS, SQL, React, Python, Node, Express, Bootstrap, Flask
- **Management & Deployment:** Github, Git, Heroku, Netlify, PostgresSQL, MongoDB
- **Other:** Adobe Design, Revit, AutoCad, Rhino 3D
- **Soft Skills:** Project Coordination, Communicative, Cooperative

PROJECTS

Hater | GitHub | Deployment   May 2022
- Web clone of Twitter application that enables users to have full CRUD capability through full front end functionality.
- Tools used: React.Js, Django Rest Framework, Heroku

Inner Body | GitHub | Deployment   April 2022
- Web application that provides functionality for tracking personal health with access to Create, Read, Update, Delete (CRUD) operations.
- Built using MongoDB, Mongoose, Heroku, React.Js

Safety Travel Site |GitHub | Deployment   April 2022
- Website that assesses travel risk and advisories for all the countries, helping travelers to prepare their trips
- Implemented 12 components using React and retrieved data from publicly sourced APIs through fetch
- Leveraged CSS grid, flexbox, media, keyframes, and Style Components and deployed with Heroku

EXPERIENCE

General Assembly   New York, NY
Software Engineering Fellow   Feb. 2022 – May 2022
- Completed 480+ hour Software Engineer Immersive program over 12 weeks
- Utilized different frameworks/languages such as django, react, express, node, js, and python to create web applications
- Collaborated with teams up to 10 members to deliver large scale projects

Timely Completion   New York, NY
Fabricator   Feb. 2021 – Dec. 2021
- Coordinated construction phases with design teams by establishing checkpoints with detailed criteria to be completed
- Produced shop-drawing details for manufacturing, assembling and installation of custom builds
- Worked closely with design firms, recommending modifications to bring designs to reality

DJ Associates and Architecture PC   New York, NY
Architecture Designer   Sept. 2019 – Dec. 2020
- Coordinated all construction documentation for every phase of each project
- Researched building codes/requirements to apply to designs and ensure work met quality standards
- Resolved issues for each project efficiently by communicating with all parties on a daily basis in order to cover all bases to uniquely construct a solution with all parties on the same page
